

8th International Conference SMART MATERIALS and SPECTROSCOPY 23-26 June 2025, Hammamet, TUNISIA

The SMS 8-2025 conference provides a valuable opportunity for researchers and professionals of all experience levels to connect, exchange ideas and share insights about Smart Materials and Spectroscopy. The conference attracts strong participation from researchers in both industry and academia.

This conference is organized by the:

- Laboratory of Spectroscopic Characterization and Optical Materials (LaSCOM)
- Laboratory of Applied Physics (LPA)
- Laboratory of Physics of Materials and Nanomaterials applied at Environment (LaPhyMNE)
- Laboratory of Materials for Energy and Environment and Modelling (LM2EM)
- Laboratory Interfaces, Confinement, Matériaux et Nanostructures - France
- Applied Chemistry Laboratory (LCA)
- Inorganic Chemistry Laboratory (LCI)

Organizing Committee

Abderrazek OUESLATI, Sfax University
Jean-François BARDEAU, Orleans University
Sourour Ben Yahya, Sfax University
Amira Bougoffa, Sfax University
Lamia Saidi, Sfax University
Wahida Ltaeif, Sfax University
Hajer Souissi, Sfax University

Chairs

Pr. Mohamed GARGOURI
Pr. Essebti DHAHRI
Pr. Samir GUERMAZI

Important Deadlines

April 30, 2025: Registration deadline
May 15, 2025: Notifications of acceptance
June 23, 2025: Opening ceremony

Topics

- * Electronic Materials
- * Dielectrics and Nanocomposites
- * Optical Materials and Laser Technology
- * Magnetic and Multiferroic Materials
- * Nanomaterial for environmental remediation
- * Energy and mechanic storage
- * Semiconductors and nanotechnology
- * Polymer materials
- * Clay materials
- * Organic/Inorganic materials
- * Modeling
- * Sensors and Biosensors
